- REEF HQ in Key Largo with a Pacific office in Seattle
- Coordinate the Fish Survey Project
- Conduct monitoring and assessments
- Exotic Species campaign
- Spawning aggregation projects
- Education/Outreach Programs

A Diver conducting a REEF Fish Survey

# REEF Fish Survey Project

**REEF**

# Roving Diver Technique

- Free swimming range around dive site (within 100m)
- Record all species positively identified
- Estimate relative abundance for each species
  - Single (S) - 1
  - Few (F) - 2-10
  - Many (M) - 11-100
  - Abundant (A) - >100
- Transfer data to REEF survey sheet

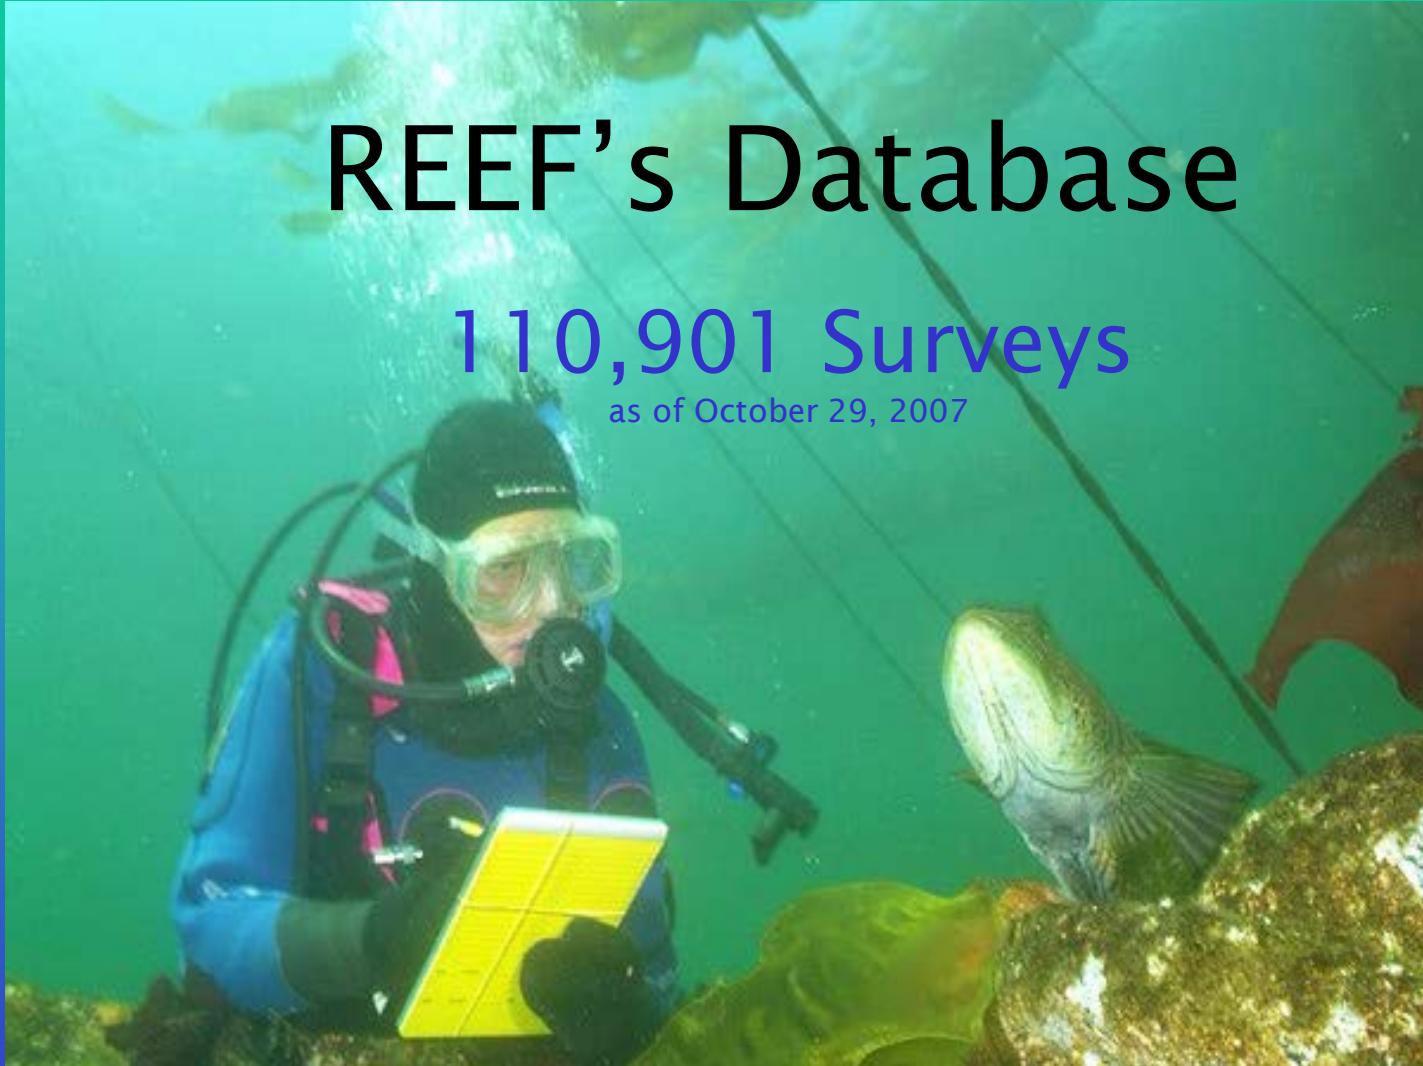

Schmitt, E. F. and Sullivan, K. M. 1996. Analysis of a volunteer method for collecting fish presence and abundance data in the Florida Keys. *Bulletin of Marine Science*, **59**(2), 404-416.

<p><b>ABUNDANCE CODES</b></p> <p>(S) single sightings (F) few 2-10 sightings (M) many 1-100 sightings (A) abundant over 100</p> <table border="1" style="width: 100%; border-collapse: collapse; text-align: center;"> <tr><td>1</td><td>2</td><td>3</td><td>4</td><td>5</td><td>6</td><td>7</td><td>8</td><td>9</td><td>10</td><td>11</td><td>12</td><td>13</td><td>14</td><td>15</td><td>16</td><td>17</td><td>18</td><td>19</td><td>20</td><td>21</td><td>22</td><td>23</td><td>24</td><td>25</td><td>26</td><td>27</td><td>28</td><td>29</td><td>30</td><td>31</td><td>32</td><td>33</td><td>34</td><td>35</td><td>36</td><td>37</td><td>38</td><td>39</td><td>40</td><td>41</td><td>42</td><td>43</td><td>44</td><td>45</td><td>46</td><td>47</td><td>48</td><td>49</td><td>50</td><td>51</td><td>52</td><td>53</td><td>54</td><td>55</td><td>56</td><td>57</td><td>58</td><td>59</td><td>60</td><td>61</td><td>62</td><td>63</td><td>64</td><td>65</td><td>66</td><td>67</td><td>68</td><td>69</td><td>70</td><td>71</td><td>72</td><td>73</td><td>74</td><td>75</td><td>76</td><td>77</td><td>78</td><td>79</td><td>80</td><td>81</td><td>82</td><td>83</td><td>84</td><td>85</td><td>86</td><td>87</td><td>88</td><td>89</td><td>90</td><td>91</td><td>92</td><td>93</td><td>94</td><td>95</td><td>96</td><td>97</td><td>98</td><td>99</td><td>100</td></tr> </table> <p><b>SIZES:</b> COLORS: NOTES:</p>	1	2	3	4	5	6	7	8	9	10	11	12	13	14	15	16	17	18	19	20	21	22	23	24	25	26	27	28	29	30	31	32	33	34	35	36	37	38	39	40	41	42	43	44	45	46	47	48	49	50	51	52	53	54	55	56	57	58	59	60	61	62	63	64	65	66	67	68	69	70	71	72	73	74	75	76	77	78	79	80	81	82	83	84	85	86	87	88	89	90	91	92	93	94	95	96	97	98	99	100	<p><b>UNDERWATER IDENTIFICATION CARD</b> <b>REEF FISH</b></p> <p>Reef Fish Identification Card featuring various reef fish species including: Bluehead Wrasse, Siganus, Boxfish, Yellowtail Boxfish, Yellowtail Boxfish, and Flame Boxfish.</p>	<p><b>West Coast, USA and Canada REEF Survey Form</b> Reef Environmental Education Foundation</p> <p>For more information on REEF, its Survey Project or to view data, visit <a href="http://www.reef.org">www.reef.org</a></p> <p><b>MEMBER ID AND MAILING ADDRESS</b></p> <p>If you have a REEF number, fill it in. ### Geographic Report Geographic Zone 3302 (Biscayne NP)

Rank	Common Name	SF%	Total	Expert		Novice	
			DEN	SF%	DEN	SF%	DEN
1	Blue Tang	88.8%	2.6	98.5%	2.6	81.9%	2.6
2	Stoplight Parrotfish	88.8%	2.6	94.1%	2.6	85.1%	2.6
3	Bluehead	85.8%	3.2	100%	3.4	75.5%	3
4	Bicolor Damselfish	82.7%	3.1	100%	3.2	70.2%	3
5	Ocean Surgeonfish	82%	2.5	97%	2.5	71.2%	2.5
6	Sergeant Major	78.3%	3.1	77.9%	3.2	78.7%	3
7	French Grunt	77.7%	2.7	80.8%	2.6	75.5%	2.9
8	Porkfish	74.6%	1.9	89.7%	1.9	63.8%	1.9

# REEF Observer Experience Levels

Levels 1-5 based upon

- Number of surveys conducted
- High passing scores on visual ID exams
- Maintaining proficiency via surveying and testing

Levels 1-3

- Considered “Novice”
- Used to encourage participation
- Valuable for most common species

Levels 4 and 5

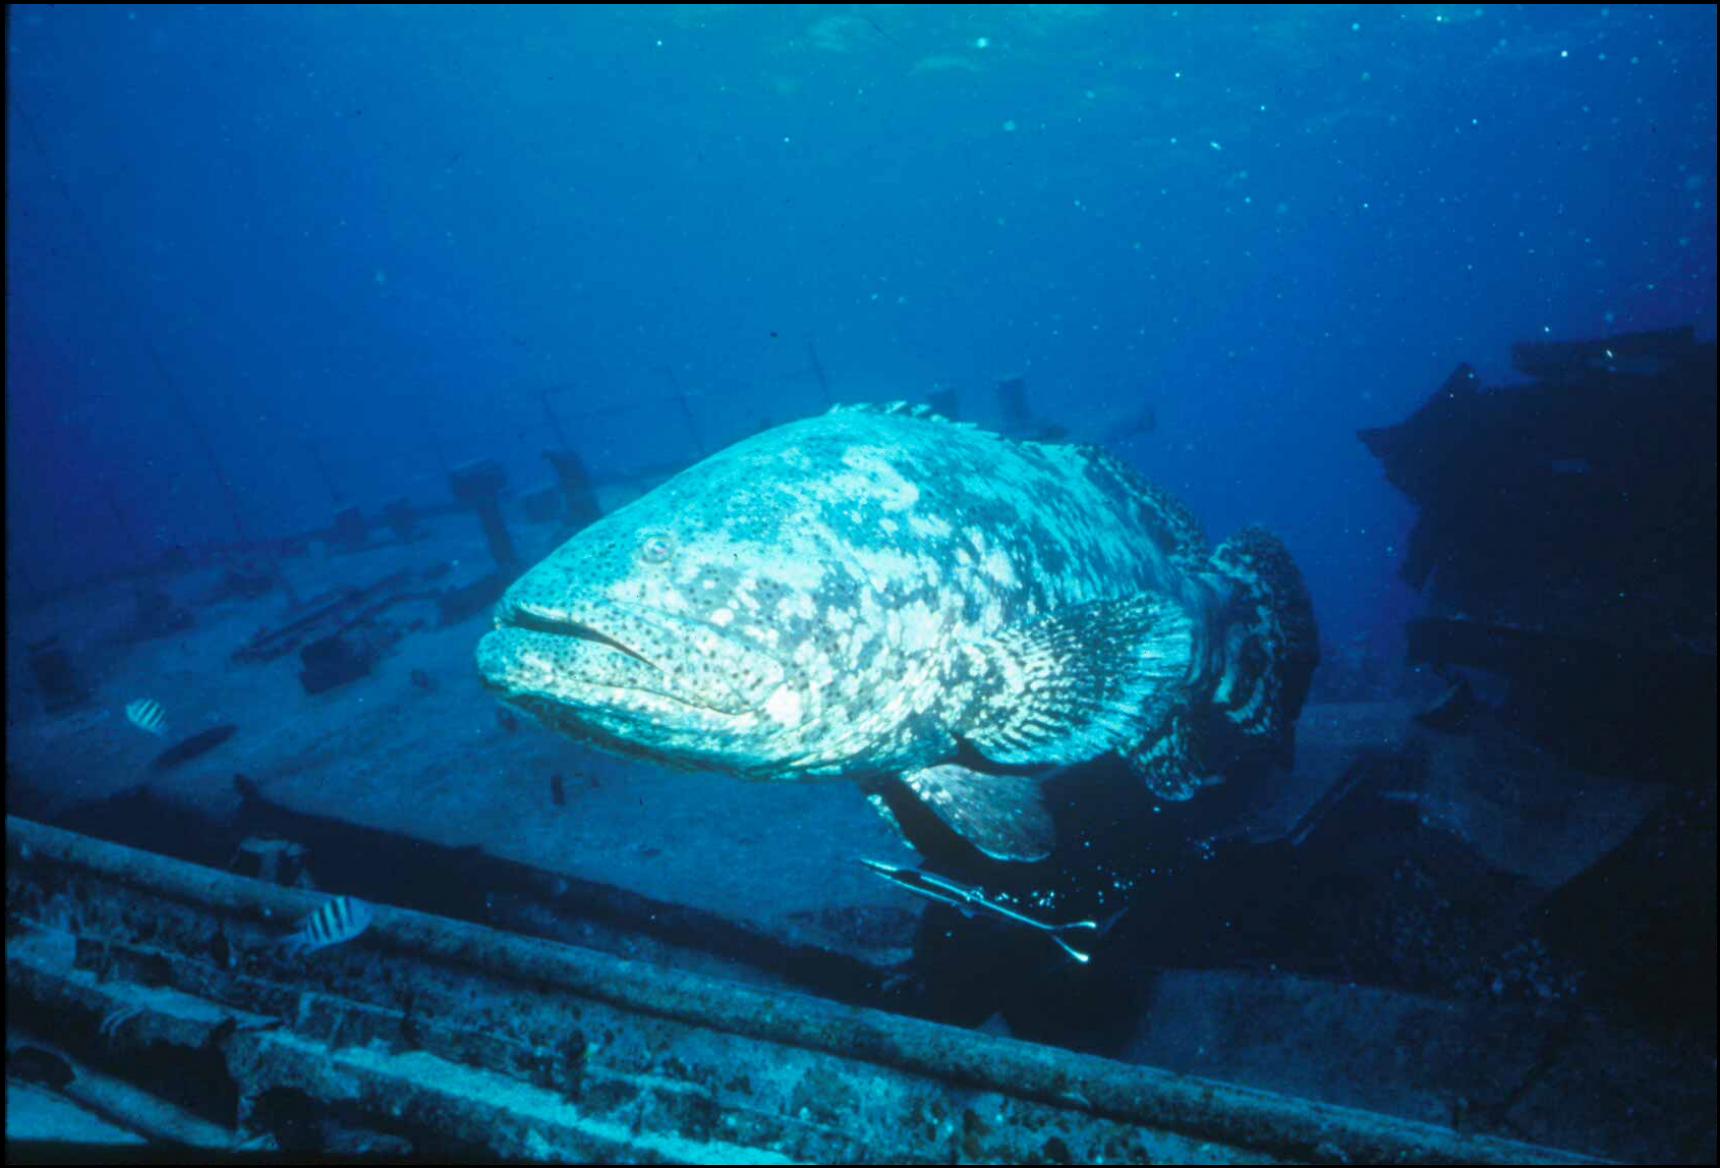

- Considered “Expert”
- Used in Advanced Assessments
- Valuable for quality observations and assistance in other projects

# REEF Data

- Fisheries independent data (Fishery Councils, protected species...)
- National Park Service (Biscayne) non-invasive species inventories
- Cayman Islands nassau grouper spawning aggregation assessment
- National Marine Sanctuary habitat/species relationships
- NOAA reef restoration assessments
- State of Florida artificial reef assessments
- Scientific publications available on REEF.org...

# Select publications using REEF data...

# Lionfish...

## The big questions...

- What effect will they have on our native marine environments?
- What can we do about it?

# A (near) perfect invader?...

- Genetic bottleneck
- Venomous protection (no predators)
- Reproductively active
- Behaviorally unique
- Rapid growth
- Young age at maturity
- Few parasites
- Wide range of potential prey

# The Best Plan...

- Prevention - through education, management, and regulation
- Early detection
- Warning
- Rapid response
- Control

# A proposal?...

- Workshop to develop coordinated plan - (USGS, FWC, NOAA, NPS, REEF, others)
- Early detection surveys - (REEF, NOAA, FWC)
- Central database/alert system - (USGS?)
- Rapid response and follow-up teams – (REEF, local agency staff, public aquaria)
- Follow-up surveys – (REEF, FWC, others)

# Catch of the Day?...
