Comments

- My Students loved the kit, especially the python skin!
- Great real world learning experience!
- Thanks so much for the kit! It really brought our curriculum to life!
- The Kit was amazingly simple to use!
- The python skin really hits home with the students.

Suggestions

- Consider including a few hands-on activities (like a game) to use in K-12 classrooms to illustrate the effects of invasives.
- Include a banner in the trunk that can be used at public events to draw attention to the display.
- Misidentification on the Chinese tallow tree (*Triadica sebifera*).
